

NATHALIE FORGET, ND.A., FOUNDER AND PRESIDENT OF DAVINCIA®

Story

The unique journey of Nathalie Forget, ND.A. and dermonaturopath

After completing her studies in health, Nathalie Forget began her career in cosmetic dermatology. However, at age 33, the head of a network of 11 medical cosmetic clinics was still struggling with pimples. She tried many different products and treatments that not only were useless, but also left burns, spots and scars on her face. At work, she also saw numerous side effects in clients having undergone both invasive and non-invasive cosmetic procedures. So, she began searching for a healthy, effective and lasting solution to common skin problems, without the side effects.

After seven years of research, Biocompatible Care®, a living treatment based on the science of skin flora, was born. This patented treatment, licensed by Health Canada, addresses 15 different skin concerns and is genuinely revolutionary. The founder of the Davincia range then became a pioneer in the use of freshly released probiotics on the skin. The brand also won the prize for best Canadian brand at the LNE 2023 congress.

After opening her own laboratory in 2015 to ensure the quality of the Davincia® product line and distribution across Canada, the entrepreneur threw herself into writing, penning articles for cosmetology journals and training. Her mission? To educate people about naturopathic dermatology and raise awareness of the ecological footprint of cosmetics.

Today, Nathalie Forget continues to search for solutions to scalp issues and ways to expand her range of skin products.

Story

Established in 2012 by Quebec dermonaturopath Nathalie Forget, ND.A., Davincia® develops and produces high-end skincare solutions that are natural and environmentally friendly. A team of professionals consisting of naturopaths and chemists oversees production.

Holistic approach, top quality natural ingredients mainly from organic farming, effective products that are healthy for humans and the planet... Davincia® is a socially conscious company that makes no compromises.

A pioneer in the use of freshly released probiotics on the skin, this innovative company distinguishes itself with the unique Soin Biocompatible. Biocompatible Care®, its flagship product, is made of living organisms that support the skin's flora. This revolutionary, patented product has received high praise from users affected by the 15 skin concerns for which it was developed. Davincia is based on the science of skin flora

The company is committed to ongoing training and the dissemination of information, including through the Académie Nathalie Forget, which constantly provides innovative resources to help its professionals in their decision-making on skin health.

Today, Davincia® is a thriving company that distributes its all-natural products through its network of retailers across Canada, online and on site at beauty salons. In addition to the famous Soin Biocompatible, the range includes products for the face, body and, above all, mineral sun care formulations that are distinctive.

In the world of beauty products, there are cosmetic formulas, natural formulas and now Davincia's own formulation, which dances with the skin.

Davinicia is a guarantee of trust, quality, and effectiveness.

The company furthermore won the Best Canadian Brand award at the LNE 2023 trade show.

A line of hair care products, including a living mask for scalp concerns, is being developed.

Davinicia®: My beauty, my health and me

THE PRODUCTS IN GENERAL

Story

Davincia® products nourish the skin's flora and keep it balanced. They're made in a certified laboratory, and their natural or living ingredients, like probiotics, are what set them apart. Their patented formulas, which are the result of more than seven years of research by Quebec dermonaturologist Nathalie Forget, ND.A., are licensed by Health Canada.

Made from untreated raw materials that aren't chemically altered in any way, Davincia® products are biocompatible and therefore easily absorbed by the skin, preserving and nourishing its natural defence barrier.

Biocompatible Care® produces conclusive results, addressing more than 15 skin concerns (list - see keywords to the right) according to the tests conducted in the Davincia® laboratory.

Most of the Davincia® daily skincare products to be used in conjunction with Biocompatible Care® contain prebiotics to nourish the skin's flora. These products are the logical continuation of Biocompatible Care®, because they maintain the effect on the skin's flora, allowing the living organisms to multiply and keep vitalizing and protecting the skin.

To achieve conclusive results, Davincia® draws inspiration from nature, using the power of ingredient synergy to maximize potency. This is what makes its distinctive preparations so effective. The naturopaths and chemists on the Davincia® team work hand in hand to create these winning formulas that finally achieve significant and lasting results.

These products keep their promises.

Davincia®: Natural health, beauty and balance

DAVINCIA.

GOOD FOR US AND OUR PLANET

Story

Davincia® products are silicone-free. Instead, Davincia® uses natural ingredients that are effective substitutes for synthetic silicones. Synthetic silicones are on the list of 12 products to avoid, according to Dr. David Suzuki, because they form an occlusive film on the skin and undermine its health. A recent report by Environment Canada revealed that certain synthetic silicones pose a risk to the environment and can accumulate in aquatic organisms.

Davincia® products contain no chemical preservatives. Davincia® uses food-grade preservatives that pose no health risk. Furthermore, Davincia® products don't contain fragrances known to alter skin flora. Instead, they use essential oils with beneficial properties.

Davincia® products have no hormone disruptors either, such as chemical sunscreen filters that are harmful to humans and the environment.

Davincia® offers innovative preparations free of nanoparticles and chemical filters, which can become unstable under natural light or the blue light from screens, irritate skin and undermine its health.

Davincia®, for beautiful, healthy skin and cleaner planet.

DAVINCIA®

STAR PRODUCT

PURIFICA™

Story

Purifica™ is a foaming, brightening cleanser that turns your bedtime routine into a dream.

Purifica™ is light, silky and refreshing. It's entirely natural and contains gentle and brightening cleansers, like white lotus, and vitamin C, as well as prebiotics to nourish the skin's flora. Purifica™ foam gently cleanses and exfoliates, brightens skin tone, eliminates impurities, and delicately removes eye and face makeup. It also helps eliminate excess facial sebum, preserving the skin's natural balance and protective hydrolipidic barrier.

Normal, oily, dry, tired, prone to redness, congested... Purifica™ restores balance to all skin types. Purifica™ also targets several skin problems, like pimples, uneven complexion, dullness and age spots.

Properties of Purifica™ foaming cleanser:

- ✓ Removes face and eye makeup (does not unglue false eyelashes).
- ✓ Eliminates impurities and excess sebum.
- ✓ Deep cleans pores and gently exfoliates skin.
- ✓ Purifies and tightens facial skin pores.
- ✓ Brightens skin tone.
- ✓ Restores balance to skin.

Purifica™ respects the skin's flora in everything it does.

Davincia®, for beautiful, healthy skin.

STAR PRODUCT

IDRATA™

Story

Developed for deep hydration, Idrata™ serum is applied before the creams in the Davincia® product line.

Idrata™ is a biocompatible, highly moisturizing, plumping and anti-aging serum. Its all-natural formula contains moisturizing molecules of different sizes to deeply nourish the skin and prebiotics that support the skin's flora. Idrata™ softens, plumps and revitalizes skin, for a radiant and luminous complexion.

Normal, oily, dry, very dry, reactive, sensitive, tired, prone to redness, congested, mature, wrinkled... Idrata™ restores balance to all skin types. Idrata™ also acts as a vector to allow better penetration of the active ingredients in the Davincia® creams that are applied afterward.

Idrata™ is a serum that reduces the appearance of wrinkles, tones skin and helps preserve optimal hydration. This anti-aging serum contains biocompatible moisturizing agents with plumping and firming properties, for younger and softer skin. The face looks firm, lifted and more youthful.

Properties of Idrata™ serum:

- ✓ Increases water content in dehydrated skin.
- ✓ Gives the skin collagen precursors.
- ✓ Revitalizes and plumps skin.
- ✓ Provides instant suppleness and comfort.
- ✓ Strengthens the skin's protective barrier against dryness.
- ✓ Illuminates skin tone.
- ✓ Reduces wrinkles.
- ✓ Improves skin elasticity.
- ✓ Nourishes the skin's flora.

Idrata™ serum effectively targets problems like sagging skin, volume loss, wrinkles and fine lines, deep dehydration, redness, and loss of firmness and elasticity.

Davinicia®: My beauty, my health and me

DAVINCIA®

STAR PRODUCT

EXFOLIA™

Story

Ideal for deep exfoliation, Exfolia™ is an important part of your weekly skincare routine.

Exfolia™ is a highly effective, triple action mineral exfoliator. Biocompatible and perfectly purifying, it's an essential anti-aging product. Its all natural formula contains different types of exfoliating agents for deep skin exfoliation. It also contains exceptional anti-aging ingredients, like Chilean rosehip oil. Used as an exfoliator or a scrub, it deeply penetrates the skin, delicately removing dead cells while delivering a sensory experience worthy of a spa.

Properties of Exfolia™:

- ✓ Eliminates impurities and excess sebum.
- ✓ Tightens, purifies and deeply cleanses pores.
- ✓ Brightens skin tone and purifies the skin.
- ✓ Smooths skin texture.
- ✓ Preserves the skin's flora.
- ✓ Nourishes, hydrates and firms skin.

Normal, oily, dry, tired, prone to redness, congested... Exfolia™ is suitable for all skin types.

Davincia®: My beauty, my health and me

DAVINCIA®

STAR PRODUCT

AQUA™

Story

Aqua™ is a powerful, intensely hydrating and plumping anti-aging mask.

Thanks to its collagen precursors and biocompatible moisturizing ingredients, Aqua™ reinvigorates tired and dehydrated skin, providing comfort, suppleness and a sense of renewal. Offering a powerful blend of biocompatible moisturizing ingredients, this natural mask targets sagging skin, volume loss, wrinkles and fine lines, deep dehydration, redness, and loss of firmness and elasticity.

Properties of the Aqua™ mask:

- ✓ Visibly improves skin elasticity.
- ✓ Plumps and revitalizes skin.
- ✓ Makes skin look firm and lifted.
- ✓ Reduces the appearance of wrinkles and fine lines.
- ✓ Visibly reduces redness caused by dryness.
- ✓ Provides a sensation of comfort, suppleness and well-being.
- ✓ Reduces skin sensitivity caused by environmental stressors.

Normal, oily, dry, very dry, reactive, sensitive, tired, prone to redness, congested, mature, wrinkled... Aqua™ is suitable for all skin types.

Aqua™ also makes lips plumper!

To achieve optimal results and maximize the benefits, let the mask soak in for 10 minutes or, better yet, spend the night with it.

Davincia®: My beauty, my health and me

STAR PRODUCT SUNBRELLA™

Story

The sun and the blue light from our electronic devices are reportedly responsible for 80% of skin damage. Not only can prolonged exposure to these short waves cause several physical problems (fatigue, eye disorders, headaches, disturbed sleep cycle, etc.), but according to recent studies, it also makes skin age more quickly due to oxidation. The result is the appearance of age spots and collagen fibre degradation.

The unstable chemical molecules in sun care products with filters transform rays and can irritate skin. Davincia® offers mineral preparations consisting of natural products that reflect these rays without disturbing living cells.

Sunbrella™ sunscreen by Davincia® is 100% mineral and contains no chemical filters. It therefore poses no risk to health or the hormone systems of living beings. Furthermore, it nourishes skin, and protects it from the sun's rays, pollution and other sources of daily oxidative stress. The three Sunbrella™ products, i.e. tinted face sunscreen, powder sunscreen and body sunscreen, work in three ways, offering protection from the sun's rays, hydrating skin and fighting the signs of aging. The tinted facial sunscreen is a great alternative to makeup, simultaneously protecting and illuminating.

Davinicia® offers innovative preparations that are free of nanoparticles. Its sunscreens are made of safe and healthy ingredients, and contain no silicone, irritants or chemical preservatives. The body sunscreen is water-resistant, non-greasy, silky, translucent and moisturizing. The tinted facial sun cream has powerful anti-aging ingredients and acts as a shield that seals in hydration. With its exquisite texture, smoothness and delicate scent, it's the perfect makeup base and defence against pollution. Sunbrella™ is a high-end tanning product that doesn't undermine human or planetary health.

The company furthermore won the Best Canadian Brand award at the LNE 2023 trade show.

Davinicia®, for the most beautiful, healthy skin under the sun

DAVINCIA®

STAR PRODUCT

BIOCOMPATIBLE CARE®

Story

Invented by Nathalie Forget, ND.A., The dermonaturopathe, Biocompatible Care® is simply revolutionary.

A true innovation, this patented product is a living mask and an essential part of comprehensive skincare regimen. It contains three types of microorganisms, including probiotics, to provide living care for living skin.

The mask is biocompatible with skin, allowing the product's active ingredients, as well as those of products used in the days following its application, to be better absorbed. In short, it optimizes the skin's response, making this unique solution much more powerful.

Biocompatible Care® purifies skin naturally and intelligently, ridding it of buildup. Furthermore, it detoxifies by eliminating chemical ingredients that are harmful to skin flora, revitalizes skin and addresses a broad range of problems while preserving biological integrity. Biocompatible Care® is perfectly safe, boosting skin's vitality without throwing it out of balance.

It's the only treatment that addresses 15 different skin concerns (see list to the right) in one hour.

Properties of Biocompatible Care®:

- ✓ Deeply cleanses, detoxifies and purifies skin.
- ✓ Removes dead skin cells.
- ✓ Regenerates the skin's moisture barrier.
- ✓ Strengthens and firms skin through hydration.
- ✓ Deeply nourishes skin.
- ✓ Optimizes skin flora quality.
- ✓ Provides protection against environmental stressors.
- ✓ Diminishes the appearance of acne scars.
- ✓ Reduces the appearance of age spots and the signs of aging.
- ✓ Smooths wrinkles.
- ✓ Prevents aging and certain skin conditions.
- ✓ Reduces the appearance of dark circles and puffiness.
- ✓ Paves the way for newer, fresher, cleaner, smoother, stronger and more resistant skin.

Davincia® offers a new generation of products based on an innovative way of communing with your skin. The results speak for themselves!

Biocompatible Care®: Living care for living skin!
