### Post Biocompatible Care® advice for all regions and all types of integuments

- Do not wash or rinse the treated area during the 24 hours (48 hours for scalp) following the **Biocompatible Care®**. The active products must remain on the skin for optimal results. The Davincia® products recommended by your Davincia® retailer may be applied in addition to the treatment during this 24-hour period.
- If you feel any discomfort, apply cold compresses or Davincia®'s refreshing mask formula **Aqua™**;
- Throughout the duration of the treatment and the two weeks following the Biocompatible Care®:
  - Apply **ONLY DAVINCIA® PRODUCTS** to avoid complications or interactions;
  - Avoid using any other chemical exfoliating product (e.g. AHA, Retinol, microdermabrasion, microneedling, etc.)
  - Avoid exposure to the sun or UV rays (tanning). If necessary, apply sunblock every 2 hours and wear a hat;
  - Stop any skincare program or product that has not been approved by your Davincia® retailer.
  - For injections, allow 1 week before and after Biocompatible Care®.
