

BIOCOMPATIBLE® CARE PROTOCOL

Scan the QR code for the protocol video.

Demo video

Take a photo before starting the treatment.

1. PURIFICA™

3 PUMPS

Cleanses, eliminates impurities and removes makeup from the eyes and face. Let the product work for 10 seconds, then rinse.

2. EXFOLIA™

3 ML

Deeply purifies and exfoliates skin. Massage in circular motions, leave on for 2 minutes, then rinse or rub off.

3. IDRATA™

2 ML

Moisturizes, nourishes and firms while increasing the absorption of products into the skin. Apply to your face.

4. LUVYA™

3 SPRAYS

Tones, improves elasticity and reinforces the skin's moisture barrier. Spray onto your face.

5. BIOCOMPATIBLE® CARE

Preparation :

- 5.1 Pour the entire large packet of powder #1 into a clean glass bowl.
- 5.2 Shake the large packet of liquid #2, then pour into the bowl.
- 5.3 Using the spatula provided, mix until a smooth paste is formed.
*Apply immediately after mixing.

Application :

- 5.4 Using the spatula, apply a thick, even layer. Avoid the area around the eyes.
*Your skin may tingle or feel warm. This is normal.
*It is normal to feel heat on a scale of 8/10 during Biocompatible® Care.
- 5.5 After 18 minutes, apply to the area around the eyes, but not the eyelids.
- 5.6 After 20 minutes, remove as much as possible with the spatula, then rinse the rest.

6. IDRATA™

2 ML

Apply to your face.

7. LUVYA™

3 SRAYS

Spray onto your face.

8. PRO BIO™

- 8.1 In a glass bowl, mix the packet of powder #1 and the packet of gel #2.
- 8.2 Using the spatula, apply thin layer and massage for 2 minutes.
- 8.3 Apply Aqua™ mask on top and leave on for the remaining pause time.

9. AQUA™

8 ML

Hydrates and revitalizes the skin with collagen. Apply a thick, even layer over the PRO BIO™. Leave on for 10 minutes, then rinse.

10. SPECIFIC CONCENTRATE

Addresses a specific problem.

11. CREAM

Prevents aging and moisturizes.

12. SUNBRELLA™

Tinted mineral sunscreen SPF30. Protects, retains skin moisture and conceals imperfections for a natural healthy glow. Apply by dabbing cream on face.

- *It is recommended to wait 24 hours before washing your skin following this treatment.
- *Never combine Biocompatible® Care with other products. The ingredients could interact with the living assets.
- *For best results, follow the recommendations of your Davincia® retailer.
- *Our tips and advice do not replace those of a recognized health professional. We encourage you to consult a healthcare professional and follow his or her recommendations at all times.

NATHALIE FORGET ND.A.

President and founder of Davincia®
The dermatoeurologist

“ I created this natural skin care product for people who wishes to improve and rejuvenate their appearance while respecting the biological integrity of their skin.

Combining passion, dedication and by 7 years of intensive research, Biocompatible® Care is a unique solution that eradicates imperfections, preserves youthfulness and vitalizes the skin by optimizing its flora. A Canadian and USA woman patent crowns this product but my most valuable recognition is your satisfaction; don't hesitate to share it! I hope to contribute by bringing out the best in you and that, in turn, you can inspire health and beauty signed Davincia®.”
